EXPLANATORY LEGEND ON REVERSE SIDE

Educational Credential Evaluators, Inc. is a private, non-profit organization. We are a charter member of the National Association of Credential Evaluation Services (NACES), an organization that establishes standards for private credential evaluation services.

Our evaluation reports identify the U.S. equivalents of foreign educational credentials. Evaluation reports are prepared by our qualified professional staff, supported by a library of more than 25,000 publications dealing with international and comparative education and more than 300,000 sample educational credentials.

Our evaluation reports are statements solely of educational equivalence. Educational Credential Evaluators, Inc. does not make judgments regarding an individual's eligibility for professional licensure, certification, or registration in the United States.

Unless otherwise noted, we only list work that was completed at the equivalent of a regionally accredited post-secondary institution in the United States. Regional academic accreditation is the process by which a post-secondary institution in the United States (university, college, or community college) receives official degree-granting recognition that merits reciprocal recognition of degrees, degree programs, and individual courses by other educational institutions, governmental agencies, and employers. This function is fulfilled in most other countries by official degree-granting recognition awarded by a ministry of education.

We report the quantity of academic work completed in another country as semester hours of credit. In the United States, one year of full-time academic work represents a total of 30 to 32 semester hours of credit. Because each U.S. university and college is autonomous, each one will accept only those credits which meet its degree requirements. Therefore, the number of credits accepted for transfer may be lower than the number of credits listed on a Course-By-Course, Subject Analysis, or Catalog Match evaluation report.

Grades (marks) are converted to the A,B,C,D,F grading scale used in the United States. Plus (+) and minus (-) grading symbols are not used because they denote a level of grading precision that is not possible to meet when one grading system is converted to another.

Grade Averages

Grade averages are calculated by dividing the total number of grade points earned by the total number of credits attempted. Grade average calculation does not include grades of: in progress (IP), incomplete (I), pass (P), satisfactory (S), withdrawn (W), or exempt (Ex).

Included in the grade average calculation:

Grade	Points	Other Grades
A	4	P = Pass on a pass/fail basis
B	3	S = Satisfactory completion of academic work where actual grades were not reported or where grade was "S" on a satisfactory/unsatisfactory basis
C	2	
D	1	
F	0	

Two grades separated by "/" indicate grades corresponding to the first and second parts of a two-part course.

Types of Evaluation Reports

General reports identify each educational credential and give the U.S. equivalent.

Course-By-Course reports identify each educational credential, give the U.S. equivalent, and provide credit and grade equivalents for each subject studied, but do not include specific information on course content.

Subject Analysis reports identify each educational credential, give the U.S. equivalent, provide credit and grade equivalents for each subject studied, and include specific information needed by the referring agency or university.

Catalog Match reports identify each educational credential, give the U.S. equivalent, provide credit and grade equivalents for each subject studied, and match each subject to the corresponding course number of the referring university.

Health Professions Licensure reports identify each educational credential, give the U.S. equivalent, provide credit and grade equivalents for each subject studied, and include specific information needed by the referring licensing agency.

To order additional copies of this report, send us the name and complete mailing address of each person to whom you want a copy of the report sent, and enclose the copy fee: \$30 for the first copy, \$10 for each additional copy requested at the same time.

If you have questions concerning this evaluation report, please contact us by mail. If the report was prepared more than six months prior to the date you send your questions to us, they must be sent with a re-activation fee of \$60. Send correspondence to the attention of the Credentials Evaluator at: ECE, PO Box 514070, Milwaukee, Wisconsin 53203-3470 USA.

Please note your ECE® reference number in all correspondence.
